SESSION SUMMARY  
4 NOVEMBER 1987  
SOURCE 0095

Site is a interconnected structure(s) with a thin/ flimsy dome like substructure on one end. Site is under construction, and workers are sliding long things into place. There is additional structure area underneath the bottom of the dome. The dome is open and airy inside. The purpose of the structure is military. In 1990, there are intermittent very loud (machine like?) noises occurring, and there is a feeling that the structure is not yet completed. The dome is concealing something: angular/ rectangular objects.

1. PROJECT: 8717

2. COORDINATES: 589281/856562

3. BACKGROUND: There are new structures under new or recent construction at the Target Site at 589281/856562. These new structures are of high interest to a US intelligence community customer.

4. ESSENTIAL ELEMENTS OF INFORMATION (EEI): Access the Target Site at 589281/856562 and identify/describe the new structures of high intelligence interest. Address and respond to the following EEI:

a. Provide an overview of the Target Site and identify the structure(s) of specific intelligence interest.

b. Describe the purpose and actual or intended use of the new/recent construction activities at the target Site.

c. Provide conceptual drawings in support of your findings.

{NOTE: IF THE NUMBER OF STRUCTURES AT THE TARGET SITE BECOME TOO VOLUMINOUS AND THE CAUSE OF VIEWER CONFUSION, LIMIT THE INITIAL COLLECTION EFFORT TO THE STRUCTURE OF HIGHEST INTELLIGENCE INTEREST. ADDITIONAL SITES WILL BE REVISITED FOLLOWING CUSTOMER ASSESSMENTS OF THE INFORMATION PROVIDED BY INITIAL INTERIM REPORTS.}

FOR VIEWER 095

6 Jan 88

1. Provide an aerial view (overhead) of the target site. Identify the target structure and place the target structure on the sketch.
2. Sketch the structure with the dome. Indicate how much of the dome structure is above ground or underground.
3. Viewer 095 Summary of 4 Jan 88 states, "The dome is concealing something: angular/rectangular objects."

---This data correlates with info provided by other viewers.

---Access, describe, and sketch the "angular/rectangular objects."

4. Viewer 095 indicates the structure as having a military purpose.

---The structure does have a definite military purpose.

---Describe the functional purpose of the target structure.

5. The structure is part of a larger target area. Identify and describe the overall purpose of the overall target site.

6. Following the above, re-access the general target area and determine the presence (if any) of any other target structures of specific intelligence interest.
